The Bombay Gazette.

No 9,816—New Series. BOMBAY:—FRIDAY, MAY 7, 1880.

SHIPPING.

THE BRITISH INDIA STEAM NAVIGATION COMPANY (LIMITED)

WILL DESPATCH STEAMERS AS FOLLOWS:—

FOR COAST AND CALCUTTA.

S. S. ELLORA, 2,027 Tons, on THURSDAY, 13th May, 1880, at 3 P. M., calling at Ratnagherry, Vingoria, Goa, Carwar, Coompta, Mangalore, Cannanore, Tellicherry, Beypore, Calicut, Cochin, Alleppey, Tuticorin, Colombo, Galle, Negapatam, Madras, Coconada, Vizagapatam, Bimlipatam, Gopalpore, False Point, Portsaro called at in the foregoing or any order.

CONVEYANCE TO THE NILGHERRY HILLS.—The steamers are timed to reach Beypore at daybreak, and arrangements have been made for a train to leave Beypore specially in connection with the steamers' arrival to convey passengers right through to Mettapolium, where they will arrive at 7-45 p. m., and after staying for the night can proceed up the Ghat early the following morning.

FOR KURRACHEE AND PERSIAN GULF.

THE S. S. SOCOTRA, 1,947 Tons, on TUESDAY, 11th May, at 4 p m., calling at Kurrachee, Gwadur, Bunder Abbas, Lingah, Bahrein, Bushire, Fao and Busreh, in the foregoing or any order.

FOR CUTCH MANDAVIE AND KURRACHEE.

S. S. "UMBALLA," 840 Tons, on SATURDAY 8th May, 1880, at 10 a.m.

FOR NATAL, MOZAMBIQUE, ZANZIBAR, ADEN, HODEIDA AND JEDDAH.

S. S. ABYSSINIA, 1,129 Tons, on MONDAY, 31st May, 1880. Cargo and Passengers for Hodeida and Jeddah can be sent by this steamer at through rates. A favourable opportunity of passage to Natal is offered, as the Abyssinia connects at Delagoa Bay with Messrs. Donald Currie and Co.'s Line of Steamers to Natal and the Cape.

MACKINNON, MACKENZIE & Co.,
Bombay, 6th May 1880. Agents.

STEAM COMMUNICATION WITH ITALY, VIA SUEZ CANAL.

ITALIAN STEAM NAVIGATION COMPANY of Messrs. B. RUBATTINO & Co., GENOA.

TREACHER & COMPANY, LD., BOMBAY, BYCULLA, & POONA.

ICE! ICE!! ICE!!!

TO REGIMENTAL MESSES, CLUBS, HOSPITALS, HOTELS, &c.

CARRE'S IMPROVED ICE-MACHINE.

WITH THE NEW CONGELATOR FOR PRODUCING BLOCK ICE, TO BE HAD ONLY FROM

S. ROSE & CO., BOMBAY.

ICE IN FOUR MINUTES.

CARRE'S PNEUMATIC ICE-MACHINE.
WITH DISTRIBUTOR AND CONGELATOR ATTACHED.

The only machine suitable for Domestic use; Cheap, Cleanly, and Easy to work; always ready for use, and never gets out of order.

Full particulars of the NEW CONGELATOR can be had on application to S. Rose & Co.

Personal inspection of the new apparatus and its accessories is requested, and full practical instructions for using the Machine will be given to the agents or to the servants of purchasers.

The mode of producing Ice is by means of a Pneumatic Machine; the air in the Decanter or Vase is exhausted by the action of the air-pump, and the moisture arising from rapid evaporation, absorbed by the Sulphuric Acid contained in the Cylinder B, and intense cold in the Decanter or Vase, is the result of reducing the water to Ice.

For use in Up-country Stations, Messes, Hotels, Hospitals, and on board Ship, these Machines will be found invaluable; and their portability renders them most serviceable for Camp use. Within fifteen minutes the Machine can be fitted together, charged with acid, and the water a 55 deg. Fahrenheit can be reduced to freezing point.

An Illustrated Pamphlet, containing full directions for use, accompanies each Machine.

Apparatus for operating on one DECANTER or VASE with NEW CONGELATOR and ACCESSORIES, complete. Net Cash Rs. 190.

Ditto, ditto, on Two DECANTERS or VASES with NEW CONGELATOR and ACCESSORIES, complete. Net Cash. Rs. 275.

Messes, Clubs, Traders, &c., supplied at wholesale rates.

Sulphuric Acid, Oils, Wax, India-rubber Rings, Thermometers, Leather Washers, and all the necessary fittings kept in stock.

The above Machines can be seen in working order on the premises of S. ROSE & Co., Bombay.

ELEVATOR.

For securely fixing the Bottle Cooler and Vases on to the tap of Ice Machine. Each Rs. 20.

The "Elevator" and "Bottle Cooler" are extras, and are not included in the price of the Machine.

SPECIAL NOTICE.
BOTTLE COOLER.

S. ROSE & Co.'s Apparatus for cooling Wines or Beer with the aid of the Pneumatic Ice Machine, and without contact of the Ice with the Wines, is an entirely new adaptation. Each Rs. 16.

CARRE'S IMPROVED (NEW MODEL) AMMONIACAL ICE MACHINES.

FOR MAKING SOLID ICE.

THE NEWLY IMPROVED ICE-MAKING MACHINE.

The Patentees have introduced such improvements in the solidity of the Apparatus, that it may now be pronounced perfect in every respect. The Boiler is now made in solid Galvanised Iron, and for all practical purposes is indestructible.

The only expense incurred in each operation is about half an anna for fuel, wood Charcoal being preferable to anything. The small size to make about a lbs. of Ice at one operation ..... half hours.

Large size to make about 4 lbs. of Ice at one operation 230 0

N.B.—Full Instructions are given with each Apparatus. Packing in two cases extra.

ICE BOXES AND REFRIGERATORS

Fitted with 3 shelves and Water Cistern, Galvanised iron Bucket for waste, with Tap ..... Rs. 140 0
THE ARCTIC REFRIGERATOR, Fitted with 4 shelves, and stone-ware lining 160 0
RAILWAY ICE BOX, specially constructed for Railway Travelling ..... Rs. 20 to Rs. 25 0

FULL PARTICULARS ON APPLICATION TO

HENRY RANDAL

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, MAY 6.

Consols yesterday were still quoted at 99⅜ and French Rentes at Fcs. 118½. Indian Government Securities were unchanged at 79 for Fours and 85½ for Fours-and-a-half.

In the London General Produce markets there are no changes of any importance, and Metals are unaltered at last week's quotations of £75 per ton for Australian Copper Tiles, £70 10s. for Braziers, 5½d. per lb. for Yellow Metal and £14 per ton for Hard Spelter.

In Manchester the market for Piece Goods yesterday was dull, and in Liverpool Cotton was quiet at previous quotations on the spot, with the exception of a decline of ⅛d. per lb. in G. F. Bengals and 1-16d. per lb. in Fair Coconadas. The day's sales amounted to 7,000 bales, of which 600 bales were Surats. Arrival prices for Surats are unchanged, but Americans are again easier, L. M. Uplands for this month's and also for June and July delivery being 1-16th per lb. below yesterday's quotations.

The New York telegrams of yesterday report a decline of 1-16th cent per lb. in Mid. Uplands on the spot and of ⅛ cent for August delivery. The Receipts at the U. S. ports compare with those for the past two seasons as follows, viz.:—

	1880.	1879.	1878.
Wednesday's Receipts	5,000	2,700	3,800
Five days' "	18,000	13,900	15,100
Total since 1st Sept.....	4,644,000	4,316,800	4,093,700

At the usual weekly biddings for Government Bills on India yesterday Rs. 24,20,000 were allotted to Calcutta and Rs. 10,80,000 to Bombay, at an average rate of 1s. 8d. per Rupee, tenders at which received 17 per cent. of the amount applied for. The quantity to be offered next week will again be 35 lakhs. The rate at which the sale has been made this week is unexpectedly high, and the report is that some outside buyer has been operating and only a small allotment has been made through the usual channels.

Sterling Exchange has been 3-32d. higher to-day for Private Bills and 1 16d. for Bank Drafts in consequence of the favourable sale of Council Drafts.

Silver is not reported higher than before (52 1-16d.) although about £80,000 have been bought and shipped for India.

In Calcutta rates have advanced to a level with our own. Business here has been quiet, particularly in Merchants' Bills.

China rates are quoted steady, but do not give a higher sterling equivalent.

The Money Market seems to be considered dearer with the Bank of Bombay Directors, as they have raised their minimum rate for "demand" loans from 6 to 7 per cent.

But our export trade is depressed and the season nearly over, and probably a tight money market could only be brought about by Government action.

Our closing rates are :—

Bank Bills, on demand.....	1s. 8 1-32d.	per Rs.
Do. 3 months' sight.....	1s. 8 5-32d.	"
Credits 3 do.	1s. 8 9-32 to 5-16d.	"
Documents, 3 do.	1s. 8 11-32 to ⅜d.	"
France 3 do.	2-11½	"

On Calcutta the demand rate is lower with sellers at Rs. 95½, but 60 days' sight bills are nominally unchanged at Rs. 102 3-16.

Government Paper.—There are sellers but no buyers at Rs. 95½, for Fours and Rs. 102 3-16 for Fours-and a-half.

Shares.—There is a continued improvement in the demand for Spinning and Weaving Companies' Script, and an advance of Rs. 25 per share is reported in Alliance, Rs. 10 in Bombay United, Rs. 5 to 10 in Central India, Rs. 5 in Coorlas, Rs. 5 in Dharamsey, Rs. 10 in Khandesh, Rs. 10 in Manockjee Petits, Rs. 10 in Morarjee, Rs. 15 in New Great Eastern, Rs. 5 in Sholapore, and Rs. 50 in Victorias. In miscellaneous shares a further advance of Rs. 5 is reported in Bombay Ice and Rs. 20 in Bombay, Barma Trading.

Cotton has been in rather better demand to-day at fully yesterday's rates, and in some instances Rs. 2 per candy advance has been paid. The chief enquiry has been for Broach, of which the supplies are at length showing signs of a decrease, and there is also some demand for F. G. F. Dholleras for June delivery at Rs. 201 per candy. The total arrivals from up country yesterday were 8,126 bales, making 49,585 bales for five days. We quote :—

Good M. G. Broach	Re-dy	Rs. 226 per candy.
" "	All May	224 "
" Comra'ttee	Ready	211 "
Dholleras	"	211 "
F. G. F. "	"	203 "
G. F. "	"	195 "
Good S. G. Dharwar	"	203 "
G. F. Compta	"	193 "

Linseed is in moderate demand at Rs. 6-3 to Rs. 6 4 per cwt.

Rapeseed is steady at Rs. 5-14 per cwt. for Guserat.

Wheat is arriving freely and is in less demand at Rs. 32 per candy for White and Rs. 29 to Rs. 30 per candy for Red.

Freights to Continental ports are steady at 55s. per ton (Freight paid here at par) for Marseilles, Genoa, Trieste, and Venice. Sailing tonnage continues in improved demand for this month's shipment, and 42s. 6d. to 43s. 9d. per ton must now be quoted as the current rate.

Piece Goods show no signs of improvement neither can any be looked for until prospects at home are more encouraging.

Coals are rather easier. The sale is reported of 1,000 tons Cardiff ex Lord Elington (3) at Rs. 18 per ton alongside. There are sellers of Davison's West Hartley at Rs. 18½ and Laird's Welsh Hartley at Rs. 17½ per ton, to arrive, without attracting buyers.

3 per cent. Consols for account	99⅛
5 per cent. French Rente, 1872	118¼
Bar Silver	52 1-16

Departure.—Cyenus.

THE grant of one year's furlough to Mr. W. Wordsworth, B. A., Principal Elphinstone College, from 1st May, is notified.

YESTERDAY'S *Government Gazette* announces that Deputy Surgeon General F. G. Joynt, M. D., is granted a pension of £456 for length of service, with the extra pension of his grade of £250 per annum.

THE vacancy on the bench of the local High Court caused by the departure of Mr. Justice Pinhey is to be filled up, says a Gujarati paper, by the appointment of Mr. H. M. Birdwood, acting Sessions Judge of Tanna.

COLONEL G. H. S. BURROWS, Bombay Infantry, commanding a Brigade on service in Southern Afghanistan, has been appointed to the Brigade Staff in succession to Major General R. Phayre, C. B., who vacates on promotion, but is to remain in his present command. Brigadier General Little continuing to officiate for him at Nasirabad.

THE villagers about Poorandhar seem to care little for the threats of the Forest officers. They wilfully burnt the slopes of a large portion of the hill on Sunday last, and the Wuzeer Gurh and the "Bottle Rock" are almost completely charred. Our informant says he never saw the latter hill look more like a black bottle. At one time the fire seemed to threaten the barracks in cantonment.

THE following appointments to the Staff of the 2nd (Reserve) Division Kandahar Field Force, appear in yesterday's *Bombay Government Gazette*:—Major-General R. Phayre, C.B., A.D.C. to command; Brigadier-General H. B. A. Wood, C.B., Staff Corps, to command a brigade; Brigadier-General T. S. Brown, 83rd Foot, to command a brigade; Colonel T. Nuttall, Staff Corps, to command cavalry brigade; Lieut Colonel T.P. Smith, R. A., commanding Royal Artillery; and Captain J. C. Robson, R. A., Adjutant, Royal Artillery.

WE have received from the Press Commissioner a translation of a notification issued by the Vali of Bagdad, specifying the rates at which the various kinds of Turkish money will in future be received at Turkish treasuries. From these regulations it appears that the standard Turkish coin is the gold coin worth 100 piasters; that it has halves and quarters and that there are two other gold coins of the value of 2½ and 5 liras respectively; that the revenues of the Ottoman dominions shall be paid at the mint value of gold, and all coins shall be taken and expended at the same rates, and that in order to equalise the silver coin to the gold the silver mejedy of 20 piasters shall be taken at 19 piasters and its subdivisions in proportion. The Supreme Government will take the necessary measures to obtain a uniform Ottoman coinage without delay.

THE concluding episode in the history of the Malabar Hill Reservoir question is looked upon with unanimous disapproval by the vernacular press. The *Bombay Samachar* is thoroughly dissatisfied with the way in which the Town Council hastened at their last meeting to throw a final veil over the question by agreeing to accept the Commissioner's proposal for a compromise of Rs. 15,000. The *Jame Jamsheed* also is much scandalised at the flimsiness of the pretexts urged by some of the Councillors in favour of the compromise. Both the journals condemn the conduct of the contractor in intimidating the Corporation with lawyers' notices, &c., and they join in complaining that the action of the Council in the matter is not only undignified, but inconsistent with a due sense of the responsibility of their positions as guardians of the Municipal exchequer and representatives of the civil interests of the public.

IN our yesterday's issue there appeared a paragraph relating to foreign post cards, which conveys a wrong impression. The real facts of the matter as communicated to us by the Postal authorities are as follows:—Since the abolition of the Southampton route in February last, as post cards were embossed with only 1½ annas, the public were informed by notices that these cards should be further stamped with ½ anna to admit of their transmission as fully paid *via* Brindisi. Where this was omitted the post cards were treated as unpaid letters, and on delivery in the United Kingdom were charged as such. In March last this question was mooted and it was ruled by the Director General of the Post Office of India that foreign post cards without the extra ½ anna stamp should be passed as fully paid and this procedure has been adopted since the 3rd of April. In the new Postal Guide published last month the following alteration appears:—The foreign post card being a stamp of ½ anna is now available for transmission to the United Kingdom *via* Brindisi, the extra charge formerly levied on post cards sent by that route having been abolished. This of course shows that the 2 annas rate has been abolished.

THE want of temper shown by the victors in the recent Scottish contests gives rise to a strong suspicion that they won in part by accident, and that they were by no means so sure of the result as they would have the world believe. The *Scotsman* has this commanderly passage in a letter on the Scotch elections:—"When Fife has spoken to-day, there will only remain one Scottish county—Orkney and Shetland—to be heard. What it will say no one can doubt who knows anything of the grotesque candidate who has offered himself in opposition to Mr. Laing. The burghs have now all given their decision with the exception of the Border Burghs, where a 'frivolous' contest has been got up by a Dairymple candidate. The burghs will make as miserable a spectacle of him as Mr. Maclean presents in the Elgin burghs. The folly of that gentleman's candidature has been outdone by the folly of his speeches, and he has received as much support as can be called his due; that is, as much support as the butler of the Earl of Seafield would receive if he came forward calling himself a Conservative. Scotland, then, in the burghs will be wholly Liberal; in the counties there will not be many Conservatives to weaken the force of the national voice." This is absurd. Mr. Maclean led a forlorn hope at a moment's notice, and so far from being "ridiculous" he polled nearly 800 votes to his enraged opponent's 2,000. His speeches were telling and to the point, and certainly Mr. Grant Duff did not form the estimate of them which the *Scotsman* affects to entertain, for he had to devote hours of his best prose to try and undo their effect on the Burgher mind.

LIEUT. GENERAL SIR F. F. MAUDE, K.C.B., V.C., Commanding the Rawal Pindi Division, has, with his staff, gone to Murree for the hot season.

IT is said that there will be no separate medal for the war in Afghanistan. The frontier medal will be given, with clasps, for Ali Musjid, Peiwar, and Kabul.

ALL letters, parcels, and telegrams intended for His Excellency the Governor and the Private Secretary, which cannot be delivered at Malabar Point by 12 (noon) on Wednesday, the 5th inst., should be sent to Bella Vista, Mahabaleshwar, until further notice.

THE Maharaja of Ulwar has, it is said, again offered to Government to defray all the expenses of maintaining a regiment of native infantry of the British service so long as the war in Afghanistan lasts, and has further volunteered his personal services, should there be an occasion.

A CALCUTTA paper states that the paragraph that has been going the round of the Press to the effect that from next cold season all the troop-ships will go to and from Kurrachee is incorrect. We are informed that there is no intention of sending *all* the troopships to Kurrachee, but it has been arranged to have the drafts for Sind and the Punjab collected and sent in one vessel to Kurrachee direct.

THE appointment of the following officers on H. E. the Governor's personal staff is officially notified, with effect from the 28th inst.:—Lieut Col H. H. D. Stracey, Scots Guards, to be Military Secretary; Lieut A. W. T. Radcliffe, B. S. C., to be an Aid-de Camp; Second Lieut. A. C. Christopher, 78th Foot, to be an Aid-de-Camp; Lieut D'Arcy Chapman, 29th Foot, to be an Extra Aid-de-Camp; Mr. G.H.R. Hart, to be Private Secretary; and Surgn. G. Waters, to be Medical Officer.

THE *Englishman* calls attention to the fact that the difficulty of obtaining recruits for the native army is increasing, for not only will men not recruit for the regiments serving in Afghanistan, but recruits are very difficult to obtain for the regiments not on active service, as there is a doubt whether these may not be sent to the front to relieve others that have been a long time on service in the field. Even the pensioned sepoys, physically fit for service, and under forty years of age, who are being asked to rejoin for three years, do not come forward readily, although offered the inducements of full pay and good conduct pay, bit money to the extent of Rs. 30, and half mounting allowance.

THE *Indian Medical Gazette* observes that Bombay is undoubtedly the most "go-ahead" city in India. It led the van in introducing compulsory vaccination by legal enactment, and now a movement has arisen for a Medical Registration Act similar to that in force in England. Its object is "to provide for the formation of a register of qualified medical practitioners and define the privileges of those so registered." It is proposed to provide for the registration of certain medical practitioners in Bombay of long standing who, though not holding diplomas, may be considered qualified to practise medicine and surgery. Whether Bombay is ripe for a measure of this kind we are unable to say, but its introduction on this side of India would, in the present state of society, be extremely difficult, if not absolutely impossible.

THE *Sunday Mirror* appears to hold peculiar views with respect to the relations between Church and State. It makes the following, among other reasonable suggestions:—"A domestic chaplain should always be with the Viceroy, and try, by daily ministrations, to give him Christian counsel. The meetings of the Governor-General's Council should always open with prayer, to be offered by the above chaplain. No appointment, civil or military, should be made except with the sanction of the bishop of the diocese. Claims to promotion should be regulated by periodical examinations, in which both ability and character should be tested. The Sermon on the Mount should form one of the subjects of examination, and the examiners should be appointed by the bishop of the diocese." The proposal as to the bishop being consulted in regard to civil and military appointments bears the stamp of originality; so, too, does the suggestion about the "Sermon on the Mount." The writer winds up his remarkable production by asking—"Christian England! Will thou hesitate to adopt these suggestions? We pause for a reply." If a profane journal like ours might venture to answer the question, we would observe that Christian England will display a considerable amount of hesitation before it entrusts the appointment of her generals and high civil officials to the discretion of any bishop or bishops. If the *Sunday Mirror* cannot bring forward more sensible and practical suggestions than those we have mentioned, the world would suffer no great loss if its pause were never again broken.

NOTES FROM DHARWAR.

(FROM OUR OWN CORRESPONDENT.)

DHARWAR, MAY 3.

THE weather here has been delightfully cool in the mornings and evenings owing to a succession of daily thunderstorms with which we have been lately favoured. On Sunday morning last we were visited with clouds of locusts which came up from the south-west and went on to the Belgaum district. What destruction they have caused I have yet to learn. I hear they were seen in immense quantities last year, but that for fifteen or twenty years before that time no locust was ever known to come into this district. Verily the ways of this insect are inscrutable.

From the 1st of next month the Cotton Department in this South Mahratta Country will be a thing of the past, and the Cotton Inspector and his subordinates will no longer be objects of terror to the fraudulent adulterator of the staple. But in this part of the Bombay Presidency the Cotton Inspector has, besides looking after cotton, to look after the machines used in cleaning it. All over the Dharwar district are Government factories for repairing and putting into proper order the saw-gins belonging to cotton owners and others, and I and many others are wonderi g what will be done with them. Will some enterprising *private* company step in and buy up the whole lot, and do for the cotton saw-gin owners what the Cotton Inspector, or Superintendent of these factories, has been doing for many years past? So far as I can learn, these factories are supported by yearly subscriptions from the gin-owners, who, however, pay besides, I believe, for the actual labour and material used in the repairs of these saw-gins. These factories are thus, so to speak, self-supporting institutions, though only so far as the actual working establishment and material are concerned. The Superintendent's pay is included in that of the Cotton Inspector, and no pecuniary provision is thus allowed for superintendence. After reading in one of your late issues the result of some careful experiments carried on a few years ago in the cleaning of a good many varieties of cotton grown in this Presidency, I came to the conclusion that the Dharwar cotton saw-gin was not the machine best adapted for its work here, but it was probably just a question of the right kind of saw to be used, and this experience will, no doubt, soon point out. However, as regards these saw-gin factories we are all wondering what will be done with them after the 1st proximo; whether the present Cotton Inspector will be deputed still to supervise their working, or whether they will be advertised for sale or hire to any private company that might feel inclined to risk capital in working them.

Independently of the careful cotton inspection which has, as a rule, been carried out in the South Mahratta Country, the Cotton Department has lately done good work in ridding a large portion of the Dharwar district from the pest of rats. It has been, in fact, a very "pied piper of Hamelin" to several of the talukas, and I rather fancy I am within the mark when I say the Department supervised the slaughter to one way and another of between eight and ten millions of these rodents. Now had all these rat skins been cured and sent to England on speculation for sale I have no doubt but that it would have been very success, ful and many have left perhaps a handsome profit after paying all expenses. Some few thousand skins have, I believe, actually been so sent home, but the pecuniary result is not yet known.

Returning once more to a consideration of the Cotton Frauds Department and its now very brief existence, I cannot help thinking that had its large cash balances been funded at a fair rate of interest in its prosperous years, it would never have been doomed to abolition. Had this been done the fund would have reached such large proportions as not only to have kept up its establishment on the former pecuniary footing, but would perhaps have enabled it to do away with the *export fee* altogether. Then I guess the Chambers of Commerce of Liverpool, Manchester and Bombay, not having to put their hands into their pockets for the payment of any fee on the staple, would, instead of abusing the Department, have prayed for its long continuance and lauded it to the skies. But as was the case in the land of Egypt many ages since, years of famine succeeded to years of plenty, and as the same judicious tact and management shown by Joseph when finance and general utility minister of the land of the Pharaohs, was not followed in the case of the Cotton Frauds Department, this latter dies, never, I fear, to rise again. *Requiescat in pace.*

THE WATER QUESTION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I have gone to the expense of fitting up a tank in my house, capable of holding a three days' supply, but such is the miserable dribble that is turned on in the main I have not been able for some time past to keep my tank even half full, and now for days I have not been able to get half as much water from it as I consume, and have consequently to hire labour to bring me water. Will any of your readers tell me, therefore, if I have not a case against the Municipality for damages, and whether I have not a further right to claim refund of water rate, so long as I am deprived of a proper supply of water by means of my service pipe.

RATEPAYER.

THE IRISH RELIEF FUND.

WE have to acknowledge receipt of Rs. 10 from "Israelite" towards the above fund.

BOMBAY.

TO-DAY,

Gaiety Theatre, "La Fille de Madame Angot" 9 p.m.

Band, H. M.'s Marine Battalion, Apollo Bunder, this evening.

VESSELS ARRIVED.—The following vessels arrived on the 5th inst.:—Chilka (s), from Rangoon; Volviston (s), Cardiff; Pearl (s), Cutch. Yesterday:—Eclipse (s), from Newcastle; City of Baltimore (s), Liverpool.

VESSELS SAILED.—The following vessels sailed yesterday:—Branksome Hall (s), to Liverpool; Memfi (s), to Trieste; Java (s), to Zanzibar; Ethiopia (s), Coast and Calcutta.

THE TULSI LAKE.—The height of water in the Tulsi Lake up to 6 a. m. on Sunday, the 2nd instant, was 20 feet and 23 tenths.

PRINCE'S DOCK.—The S. S. Lemnos entered the Prince's Dock on Wednesday last and was berthed alongside the north wharf.

AN ELEPHANT.—A young elephant arrived from Coimbatore on Wednesday last at the Dadur railway station by the mail train. The animal was allowed to be taken on to Naigaum by order of the Acting Deputy Commissioner of Police.

CRIMINAL BREACH OF TRUST.—Luximor Babajee was yesterday convicted by Mr. P. Ryan of criminal breach of trust in respect of a turban, valued at Rs. 3, the property of Wittoo Ramjee. He was sentenced to three months' rigorous imprisonment.

INQUEST.—A Coroner's inquest was held yesterday at H. M.'s House of Correction on the body of a prisoner, named Khristna Wittoo, who died from natural causes. The verdict was, "That the death of the deceased was caused by phtisis pulmonalis."

BOMBAY NATIVE DISPENSARY.—The total number of new patients treated during the last month at the head branch of this institution, Dhobi Talao, was 2,503, the average daily attendance being 289. The prevailing diseases were intermittent fevers, coughs and bowel complaints.

AN OLD OFFENDER.—Mooljee Khemjee, a noted character, was yesterday convicted by Mr. W. Webb on four separate charges of housebreaking by night and theft of property, consisting of articles of wearing apparel, belonging to four different parties. He was sentenced to two years' rigorous imprisonment.

COMMITTED TO THE SESSIONS.—Yacoob Ismail *alias* Balla Ismail, a reputed thief, was yesterday committed by Mr. P. Ryan to take his trial at the next Criminal Sessions of the High Court on a charge of the theft of bedding and sundry articles from a mosque. The property belonged to one Ebrahim Subratee.

THE ROOKMINIBAI DISPENSARY AT CALLIAN.—During the month of April last 610 patients were treated in this charitable institution, of whom 525 were new admissions (including 6 indoor patients) of which 419 were cured, 116 absented, and 75 are still under treatment. This includes 85 remaining from last month.

ACCIDENT.—A labourer, named Atmajee Tookaram employed at the Maagon Spinning and Weaving Mills, on Wednesday last had the fingers of his left hand accidentally crushed by the machinery whilst in motion. He was removed to the J. J. Hospital for treatment, where it was deemed necessary that the two fingers should be amputated.

MUSIC AT THE APOLLO BUNDER.—The following is the programme of music to be played by the Band of H. M.'s Marine Battalion at the Apollo Bunder this evening:—

March	
Over ure	Il Conte de Essex ..... Mercadante.
Gavotte	Der Seekadet ..... Strauss.
Selection	La Fille de Madame Angot ..... Lecocq.
Valse	Les Sirenes ..... Waldteufel.
God	Yet its ..... Kuhner.

GOD SAVE THE QUEEN.

SEAMEN DESERTERS.—Shaik Mohideen Oomerdeen and Koodabux Omeerkhan, seamen of the steam ship Gwalior, were yesterday each sentenced by Mr. Nana Morojee to two weeks' rigorous imprisonment and to be sent back on board their vessel on the expiration of that term of imprisonment, for deserting from that vessel, of which they are articled seamen.

ILLEGAL POSSESSION OF PROPERTY.—Shaik Mahomed Fakeer Mahomed was yesterday sentenced by Mr. P. Ryan to three months' rigorous imprisonment for having in his possession sundry articles of wearing apparel, reasonably suspected to have been stolen or fraudulently obtained, and failing to account satisfactorily how he came by the same, he being a reputed thief.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 26th ult., was Rs. 60 67 212, add silver received during the week ending "Madame Angot" with much spirit. There was well supported by Miss Lizzie Wilson as Javotte, the two Misses Hedderwick representing respectively Babet and Hersilie, in a very pleasing style. Mr. F. Ferrani as the revolutionary poet, Ange Pitou, made good use of his excellent tenor voice, and was loudly applauded in his first song "Tis true I dearly love Clairette," and in the duets with Clairette in the first and Mdlle. Lange in the second act. Mr. J. B. Ferrell made a good Larivaudiere, while Mr. Rollings was efficient as Pomponnet, acting the simple minded barber with a capital conception of the character. Mr. H. Oakley sang the few bars allotted to the officer of Angereau's troop carefully, and having a fine baritone voice was very effective in the chorusses. The spy Louchard was represented by Mr. Arthur with great drollery, while a better Trenits than Mr. Drew can hardly be desired. Messrs. Moore, John Merriless and J. Devono as Cadet, Guillaume and Buteux, the marketmen, completed an excellent cast. The chorus was not very strong, but was well drilled, for although the conspirator's chorus consisted of the conventional eight only, the remarkably fine style of its delivery was so much appreciated by the audience, that they were unsatisfied with a repetition of it and called for another. We have only to add that the production of La Fille de Madame Angot was in every way worthy of the cordial reception it met with.

BOMBAY TOWN COUNCIL.—In the report of the meeting of the Town Council, the result of the slight discussion on the reading of the documents relating to the proposed compromise by a payment of Rs. 15,000, for the concession regarding the masonry of the Malabar Hill Reservoir walls, to the Municipality, was omitted by an oversight. The motion accepting the compromise was passed unanimously by the Town Council after a few remarks from some of the members.

NEWS FROM KHANDESH.—The weather in Khandesh has now set in very hot, the thermometer registering 98 to 100 daily in the shade. The Rest Camp opened at the commencement of the trooping season has now closed. It has been largely patronized by both infantry and cavalry travelling *via* the Dhond and Manmad Railway and also *en route* to the front *via* Bombay, and must at times have acted as a substantial whip to the Deolalee depôt during this heavy trooping season.

INGRATITUDE.—A European, named Harry Rosin, was yesterday convicted by Mr. W. Webb of stealing Rs. 70 in currency notes and cash, the property of Mr. James Moritz, a merchant residing in the Fort. The prisoner, it appears being in distressed circumstances, was charitably allowed by complainant to live with him. While there, the prisoner at night broke open a jewel case belonging to complainant, which contained money, and helped himself to Rs 70. On the matter being reported to the police, a portion of the property was found in prisoner's possession, and identified by the complainant. The prisoner was sentenced to four months' rigorous imprisonment.

THE DHOBIE TALAO BOYS' AND GIRLS' SCHOOL.—The annual exhibition for distribution of prizes to pupils of the above institution, known as the Aderjee Cowasjee's School, was held on Sunday last at the Framjee Cowasjee Institute. There was a large gathering of native ladies and gentlemen. Mr. K. R. Cama having taken the chair, a female scholar, Manekbai Nowrojee Kapadia, read the annual report which showed that the school was first established in 1868, when there were only 7 boys and 3 girls on the muster roll. The figure now stood at 250. The school at present receives grant-in-aid of Rs. 516. After the reading of the report, some of the pupils recited Guzerati songs, after which the chairman distributed the prizes.

HIS EXCELLENCY THE COMMANDER-IN-CHIEF.—His Excellency General Warre and Mrs. Warre arrived here by last night's train and are residing at the Royal Family Hotel. His Excellency leaves for Mahableshwar this afternoon (Thursday) by phaeton dak.—*Poona Observer.*

STAFF OF HIS EXCELLENCY THE GOVERNOR.—Colonel Stracey, Military Secretary, and Mr. Hart, Private Secretary, passed through Poona *en route* to Mahableshwar last night. His Excellency the Governor will arrive at Mahableshwar this evening (Thursday).—*Id.*

THE FIFTH CRIMINAL SESSIONS.—The fifth Criminal Sessions, Poona, concluded on Tuesday last. There were two cases, one of dacoity, was acquitted and the other traversed to the next Criminal Sessions.—*Id.*

KHANDALLA.—We are told by a gentleman who was at Khandalla yesterday morning (Wednesday) that the mists on the ghats were very heavy at the time the mail train from Poona went down the incline. The "sanding" lorry went down a little before it, and the sand was needed for the rails were quite wet with the heavy dew and mists. Everything felt damp, and white clothing was manifestly uncatable; it became limp and undressed after being exposed to the damp air for five minutes. There seems to be some indication of the approach of the monsoon. The wind was unmistakably from the south-west, more south than west, as it filled the station with the smoke of the train as it passed down the ghat. It had very few passengers—only one or two in the white carriages, all the rest were third class passengers. The air is decidedly damp and monsoonish, and it is not unlikely that there will be some heavy rain shortly.—*Deccan Herald.*

THE TRAFFIC ON THE GREAT INDIAN PENINSULA RAILWAY.—The decrease in weight in goods traffic on the G. I. P. Railway for the week ending 24th April, 1880, was 72.769 maunds, and in money Rs. 45,583. The quantities carried and the earnings compare with 1879 as follows:—

Description.	Week ending 24th April 1880.	Week ending 26th April 1879.	Increase.	Decrease.

LA FILLE DE MADAME ANGOT.

THIS familiar old favourite was produced on Wednesday night by the combined companies of Miss Stanley and Dave Carson under the direction of Miss B. Hoctor. The first notes of the overture appeared to cause great exhilaration to the audience, and, spite of the frequent representations of Lococq's well known work, everybody was eager for the curtain to rise. When it did so, the excellent view of the old Paris Market Square, the gay dresses of the pretty market women, the variety and effect produced by the moving groups passing to and fro, and the lively music, delighted the audience, and the applause was continuous. Again, in the second act in the apartments of Mdlle. Lange, the scene was beautifully arranged and the dresses could not have been better either in material or design. In the third act, the Belleville pleasure gardens, illuminated by numerous variegated lamps, calling to mind the glories of Vauxhall or Ranelagh, so pleased the visitors as to win a special round of applause. The French quadrille was also encored and the efforts of the *danseusees* gained repeated plaudits. The version used was one written for an Australian public and somewhat different from that by Byron, whose peculiar spot of turning the simplest sentences into whimsical puns is frequently noticed in the production of some extremely odd, quaint, and comic expressions. The principal performers in the opera not only acted well, but had more than ordinary merits as vocalists. Clairette by Miss Stanley was a thoroughly good performance, musically and dramatically, and she sang with good effect in the Revolutionary song and other favourite airs, her success being complete and well deserved. Miss Bertha Hoctor displayed all her accustomed grace and talent as Mdlle. Lange. She looked the part to perfection and sang with much spirit throughout, while in the "fish fag" duet between the rival sweethearts in the last scene she was unusually effective and amusing in her comic business. The performers did not actually tear each other by the hair, but the scene was quite realistic between the pair. Clairette's song in this act was redemanded, but, in fact, the calls upon both these young ladies throughout the evening—flattering as the circumstance is—were much too unreasonable to be always complied with. Their charming vocalisation in the duet "Oh happy days of childhood's joys" was received with most cordial tokens of approval, which were never more fairly earned. Mrs. Carson was a very genial and lively Amaranthe and sang the well known "Legend of Madame Angot" with much spirit. She was well supported by Miss Lizzie Wilson as Javotte, the two Misses Hedderwick representing respectively Babet and Hersilie, in a very pleasing style. Mr. F. Ferrani as the revolutionary poet, Ange Pitou, made good use of his excellent tenor voice, and was loudly applauded in his first song "Tis true I dearly love Clairette," and in the duets with Clairette in the first and Mdlle. Lange in the second act. Mr. J. B. Ferrell made a good Larivaudiere, while Mr. Rollings was efficient as Pomponnet, acting the simple minded barber with a capital conception of the character. Mr. H. Oakley sang the few bars allotted to the officer of Angereau's troop carefully, and having a fine baritone voice was very effective in the chorusses. The spy Louchard was represented by Mr. Arthur with great drollery, while a better Trenits than Mr. Drew can hardly be desired. Messrs. Moore, John Merriless and J. Devono as Cadet, Guillaume and Buteux, the marketmen, completed an excellent cast. The chorus was not very strong, but was well drilled, for although the conspirator's chorus consisted of the conventional eight only, the remarkably fine style of its delivery was so much appreciated by the audience, that they were unsatisfied with a repetition of it and called for another. We have only to add that the production of La Fille de Madame Angot was in every way worthy of the cordial reception it met with.

BENGAL.

OPIUM SALE AT CALCUTTA.—The following is the result of the opium sale held at the Government sale-room, Calcutta, on the 3rd May:—

	Chests.	Highest.	Lowest.	Average.	Proceeds.
Behar	2,350	1,415	1,380	1,403-1-6	32,97,275
Benares	2,350	1,325	1,325	1,325-15-5	31,15,27

A NEW COTTON MILL.—It is stated that a new cotton mill is about to be started in Calcutta under the name of R. Whitham and Co. A compound and suitable buildings have been secured at Goosery, capable of holding 10,000 spindles, though at present it is only proposed to start 5,000 spindles.

THE DARJILING TRAMWAY.—The new engines for the Darjiling Steam Tramway are working admirably, and daily running to within four or five miles of Karsiong. As the rails are all laid to that place, we may shortly expect to hear the line is open so far, and ready to be passed by the Government Engineer. This will be a great boon to "Ditchers," as the only unpleasant part of a trip to Darjiling will be accomplished quickly, and a large and paying traffic should be the result.—*Englishman.*

THE CALCUTTA TRADE IN JUTE.—In the first three months of the currrent year, the number of vessels which arrived at Dundee from Calcutta with jute was 30, of 43,750 tons, and the amount of

Peter's, but in the old Ghetto at the Porta Portese the birthplace of Western Christendom. Some small chapel ought to have been reared to the two good Jews from Pontus who first syllabled upon the quays of Rome the name of Jesus. One main point to be noted was that the Church of Rome was not, like the Churches of Asia Minor, Macedonia, and Greece, planted by Paul. It was a Jewish Christian foundation directly sprung from the Church of Jerusalem. Here Paul would never be on his own ground; he would see in this great Church many weaknesses, which he would treat indulgently, but which could not fail to wound his exalted idealism, Attached to the circumcision and to externalism Ebionite in its taste for abstinences, and in its doctrine more Jewish than Christian as to the person and death of Jesus, as well as by its strong attachment to Millenarianism, the Church of Rome presented from its earliest days the essential characteristics which mark it throughout its long and marvellous history. A daughter of Jerusalem in the direct line, the Church of Rome would always bear an ascetic and sacerdotal stamp opposed to the Protestant tendency of Paul. Peter was always destined to be her real chief; and in the next place, inspired by the political and hierarchical genius of old Rome, she was to become a veritable New Jerusalem—the city of the pontificate, of hierarchical and rubrical religion, of material sacraments justifying of themselves, the city of ascetics after the type of the Apostolic Bishop of Jerusalem, James Obliam, with his horny knees and the high-priestly plate of gold upon his forehead. She would be the Church of authority. For her the only proof of Apostolic mission would be a letter signed by the Apostles. All the good and all the evil which the Church of Jerusalem did to nascent christianity, the Church of Rome would do to the Universal Church. In vain did Paul write to her his fine Epistle to expound to her the mystery of the cross of Jesus and of salvation by faith alone. She understood next to nothing of it. But Luther fourteen centuries and a half afterwards, was to understand it and to open a new era in the secular series of the alternate triumphs of Peter and Paul.

M. Renan spoke of St. Paul's arrival at Rome in A. D. 61, for the purpose of prosecuting the appeal he had made to the Emperor, as a great event in the world's history. It was one almost as pregnant with consequences as his conversion. In his chains there the Apostle of the Gentiles believed that in this event his Apostolic career had culminated. It had been preluded by a second apparition of Christ, who had bidden him be of good cheer, assuring him that as he had borne witness of him at Jerusalem, so should he also at Rome. The learned lecturer then gave an elaborate account of what he called the profound divisions which already, in the first century from the foundation of Christianity, sundered the disciples of Jesus—so profound, he said, that all the differences which divided orthodox folks, heretics, schismatics in our own days were as nothing compared with the dissensions between Peter and Paul. The views presented were those arrived at by the so-called Tubingen school of ecclesiastical history and theology. The Church of Jerusalem refused communion to all uncircumcised Christians, however pious. Paul, on the contrary, preached that to uphold the old law was to insult Jesus, as implying the insufficiency of His merits for the believer's justification. Jerusalem with its Bishop James, with which Church Peter was in close alliance, sent out opposition missions to counterwork those of Paul. Peter, whose *role* in the Judaizing party was that of a kind of timid trimmer between the Ebionite and Pauline extremes, came to Rome with some such intent, and, seemingly, not very long after Paul's arrival there. The question of St. Peter's personal connexion with the Church he is traditionally said to have founded was treated at large. At the Reformation the Protestants made a kind of dogma of the denial that he had ever been there, thus dethroning the Pope at once, who claimed the headship of Christendom as the lineal successor of St. Peter. For himself and those like-minded with him, M. Renan said, the point was simply a curious question of history and nothing more. For the Roman Catholic assumption of St. Peter's arrival at Rome in A.D. 42 and his Pontificate there of 23 or 24 years, he proved in detail that there was no tangible evidence; while, to mention nothing else, the silence of Paul's Epistle to the Romans (written A. D. 58) and of the closing verses of the Acts were quite conclusive against it. On the other hand, he marshalled a powerful array of arguments for answering in the affirmative the question as to Peter's having visited Rome after Paul. Peter's martydom is attested by extremely ancient evidence, and somewhat later tradition which connects it with the Naronian persecution at Rome has all antecedent probability in its favour. The mystical Babylon whence he dates his epistle can only be Rome. The third argument was drawn from the Ebionite (or strongly Judaizing) "Acts of Peter" and borne not only on this fact, but on the purpose also of that Apostle's visit to Rome. This apocryphal book showed us Peter following to Rome Simon Magus, which is understood to be here nothing but an Ebionite nickname for St. Paul, in order to combat his heresies. In treating this legend, Lipsius, a distinguished Tubingen critic, had shown that it dates from A. D. 130. It seemed hard of belief that the Ebionite author should at so early a date have attached such importance to Peter's voyage to Rome and to his death there after vanquishing the hierarch, had there not been some historical grounds for the story. It was quite admissible that Peter came to Rome, as he came to Antioch, to follow on the heels of Paul, and with a view to neutralize his influence. About the year 60 the Christian community was in a state of spiritual excitement which presented quite a contrast to the 20 years of claim waiting for the end which followed the death of Jesus. The missions of Paul and the facilities which the Jews met with for their voyages had made distant expeditions quite the order of the day. An old and persistent tradition spoke of the Apostle Philip as having shifted his abode to Hierapolis, in Asia Minor.

M. Renan, after deploring the mystery which overhangs so many of the facts of primitive Christianity, addressed himself to penetrate, as far as was possible, the veil which hides from us the circumstances of the death of Peter and Paul. It would never, he said, be wholly pierced. The likeliest view was that both perished in the great massacre of the Christians ordained by Nero. As to the fact of such a massacre there was no room for doubt, since we had it on the authority of Tacitus. It was an episode in the history of the great fire of Rome, which broke out on July 19, A. D. 64, and not only destroyed entirely three out of the 14 *regiones* of which the city consisted, but rendered seven more to blackened walls. Of this frightful disaster, the suspicion which Nero fell under of having caused it, and the heartlessness with which the tyrant abandoned the Christians to the rising waves of the public wrath, M. Renan gave a most graphic recital. It was but too easy for Nero to carry out his infernal idea of making the new religionists the scapegoats of his own crime. They were still worse hated than himself. The horror they felt for the temples made it very conceivable to the bigoted, mob that they had at least fed, if they had not lighted, the flames. Some strict Jews would not carry money because it bore Cæsar's image while other would not pass through any city gate surmounted by a statue. The song over burning Rome in the Apocalypse, written four years and a half afterwards, most likely borrowed some traits from the great fire of A. D. 64. The exultation there expressed was too congenial to the pious sectaries who were not unlikely to have seen in spirit the saints and angels applauding from on high what was regarded as a just expiation. Nero offered his gardens across the Tiber for the shows, in which the victims were to be the Christians clad in the skins of wild beasts, while others dressed in garments saturated with oil and pitch served as living torches to illuminate the horrid scene. M. Renan described this fete of Nero's gardens on that 1st of August, as they which could only compare with that of Golgotha, in sufficiently realistic detail. The event was one of the most solemn in the history of Christianity. After remarking that the solidity of a building is in proportoin to the virtue the sacrifices, the devotion deposited on the foundation stone, he added that fanatics alone can found any thing Judaism lives on still because of the intense frenzy of its prophets at annalists; Christianity by means of its witnesses. Nero's orgy was the great baptism of blood which marked out Rome, now the city of martyrs, as destined to play a signal part in the history of Christianity, and to be its second Holy City. It was the taking possession of the Vatican hill by a kind of triumphal procession unknown till then. The hateful and brainless Emperor did not see that he was founding a new order of things, and was signing for the future a charter whose provisions would be matter of claim at the end of 1,800 years.

M. Renan proceeded to argue that the Apostles Peter and Paul were both martyred at this epoch, and not improbably in the manner attested by tradition—namely, Peter by being crucified with his head downwards and Paul by beheading. He said that in his next lecture he would show how legend cut short all historical scruples, and in what manner the Church consummated a reconciliation between the two great leaders—a reconciliation which death had possibly foreshadowed. Success was only to be had at this price. Seemingly incapable of alliance, the Jewish Christianity of Peter and the Hellenism of Paul were equally necessary to the triumph of the future work. Jewish Christianity represented the Conservative spirit, without which there is nothing solid; Hellenism the march of progress, without which nothing truly exists. Life is the resultant of a conflict between two contrary forces. Wd die as easily by the absence of all revolutionary breath as by the excess of revolution.

Every kind of Insurance business transacted.
Full particulars given on application to the AGENTS OF THE COMPANY.

MACFARLANE & GILBERT,
Solicitors, Bombay.

GOLD MINING IN THE MYSORE TERRITORY.

PRELIMINARY NOTICE.

MESSRS. ARBUTHNOT & Co., have been authorised by the Concessionaires [from the Government of Mysore] of certain land in the well known gold-producing district of Kolar and which is known to contain auriferous quarts in very large quantities, to form a Company for the working of a square mile, or 640 acres, of such land which they are prepared to allot on certain conditions. The land referred to is close to the block known as the "Ooregum Block" and the same reefs as are now being worked by the Ooregum Company run through it. The Concessionaires have agreed to transfer all their right, title, and interest in the 640 acres referred to for 5 lakhs of Rupees, half to be paid in cash and half in fully paid up shares. The title to the land is, Messrs. Barclay and Morgan advise, unexceptionable, and the terms asked are only slightly higher than those that have been paid by companies in England to work portions of the Ooregum Block. No further payments of any kind, beyond the five lakhs of Rupees is to be made to any one.

The proposal is to form a company with a capital of 10 lakhs of Rupees, to acquire and work a square mile of mining land. It is believed that a Company with this capital ought to be able to develop all the resources of the land handed over.

The shares are to be of the value of Ten Rupees each, and the name of the Company, The MADRAS GOLD MINING COMPANY [LIMITED]. The Company's Registered Office will be in Madras, but it is not unlikely that a considerable portion of its capital will be raised in London where similar enterprises are meeting with great favour. The Company will have a Madras Board of Directors, and it is proposed that Messrs Arbuthnot and Co. should be the Secretaries and Treasurers.

This preliminary notice is issued in order that it may be ascertained with what degree of favour a Company of the kind is likely to meet with at the hands of the Indian Public, and that it may be decided how many of the 70,000 shares still available for the public [5,000 having already been privately taken up] also be reserved for local investors and how many for allotment London.

Messrs. Arbuthnot and Co. will be glad to receive applications for shares in the annexed form and up to 31st January next before that date the shares are fully applied for; and should the Company not be formed, the deposit of One Rupee per share will be returned without any deductions.

Madras, 10th April 1880.

FORM OF APPLICATION FOR SHARES.

To MESSRS. ARBUTHNOT & Co., Madras.

On behalf of the Madras Gold Mining Co (Limited).
Having paid to the Bankers [yourselves] of the above Company the sum of Rupees..... being a deposit of One Rupee per share on.....shares of Rupees Ten each in the said Company, I request you will allot me that number, and I hereby agree to accept the said shares or any smaller number that may be allotted to me, and to become a Shareholder of the Company in respect thereof; and I hereby authorise you to place my name upon the Register of Members for the shares so allotted.

Name in full .....

THOUSANDS OF TESTIMONIALS FROM ALL PARTS.

CURE OF RHEUMATISM AND SCORBUTIC ERUPTION.

The Elms, North Cheam, Surrey, S. 4th March. 1875.
"SIR,—I had been suffering from rheumatism for several years, together with scorbutic eruption of the skin, of a local nature, about the size of the palm of the hand, and was induced to try you. Blood Mixture in consequence of two gentlemen in my neighbourhood having been cured of obstinate sore, on the body. After taking two bottles, I became much better, and continued it up to the tenth bottle, when I found the rheumatism had left me, and my arm was healed. I consider it a most valuable medicine.
"You are at liberty to use this letter in any way you think proper, for the benefit of others. "Faithfully yours,
"To Mr. F. J. Clarke." "THOMAS WATTS"

Sold in Bottles 2s. 6d. each, and in Cases, containing six times the quantity, 11s. each—sufficient to effect a permanent cure in the great majority of long standing cases. BY ALL CHEMISTS, and PATENT MEDICINE VENDORS throughout the world.
Sole Proprietor, F. J. CLARKE, Chemist,
APOTHECARIES' HALL, LINCOLN, ENGLAND.

SHIKAR WATCHES.

We make a really good useful watch in aluminium case at Rs. 25, ditto superior quality Rs. 35 and Rs. 40. The higher qualities have a patent lever escapement and are extra jewelled, and we can recommend them with every confidence to those of our patrons requiring a thoroughly serviceable watch for rough usage. We guarantee the above watches to last for 15 years.

INTIMATION.

We have lately added an important branch to our business, viz., manufacturing on our premises gold chains and jewellery of pure Indian gold, by skilled European workmen, therefore giving the due finish of Western workmanship, better value in gold, and saving the heavy loss by exchange, duty, &c., which have to be charged on articles of this description imported from Europe. Our prices for this description of goods will be found lower than any firm in India.
